

screen_share

Easy Read Guide

screen_share is a new event for artists who make artwork meant to be shown on digital screens

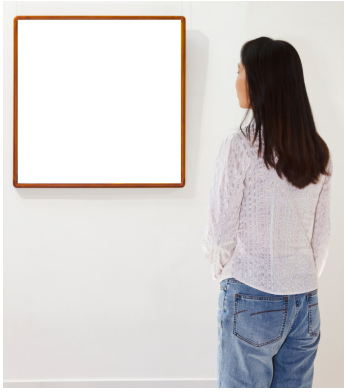

This artwork could be films and videos, animations or games

If you're an artist making artwork like this you can show it at **screen_share**

It's a chance to get together with other artists and talk about what you've made

You can also come to **screen_share** just to see what other artists have made

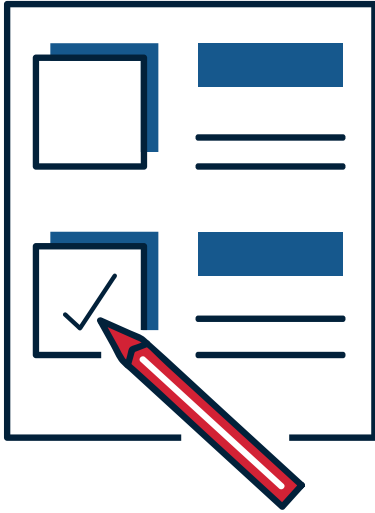

The first event is happening on **Thursday 17 December** from 7pm and will take place live on the internet

It's open to artists who live in the East Midlands

You don't have to have lots of experience to take part and your artwork doesn't have to be completely finished

You can let us know if you would like to show your work at **screen_share** by filling out this [form](#)

You need to let us know by midnight on Thursday 10 December

If you want to, you can tell other people at **screen_share** some things about your artwork just before we show it

We'd prefer the artwork to be new, and not any older than two years
