

FTP Cohort

Easy Read Guide

We're inviting artists to join
FTP Cohort - a new group to
help people learn how to be
digital artists

There'll be **talks and training**
from experienced artists about
different ways of using digital
technologies

You'll have the chance to meet,
talk and learn from each other
as a group, along with creative
and technical help from
Phoenix

You can be **any kind of artist**,
as long as you have a strong
interest in using digital
technology creatively

We'll run the group in person when possible, but it will probably be **online to start with**

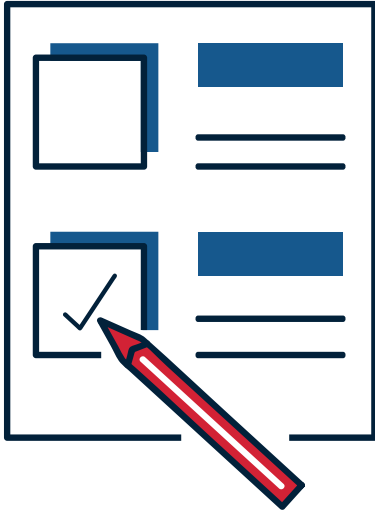

We'll also offer the chance to **exhibit artwork** and support you if you apply for funding

It's **open to artists who live in the East Midlands**, but we especially want to hear from artists in Leicester and Leicestershire

We particularly encourage applications from artists who are usually **under-represented in the arts**

You can apply to join FTP Cohort by filling out this [form](#)

You need to apply before midnight on **Sunday 14 March**

We'll then get back to you by **Thursday 18 March**

18+

You have to be aged 18 or over to join the group
